

6th Annual Production Sale . Bischoff's
Ravine Creek Ranch

**Magness Livestock Market
Huron, South Dakota
Saturday, March 3 . 1:00 PM**

Over a century of breeding quality Hereford Cattle

Welcome!

Your success-- is our success!! We are encouraged by the numerous reports of how well our cattle perform in the pasture, at the sale barn and in the showring.

We believe that our herd and the Hereford breed continue to improve. EPD's are more accurate and meaningful than in the past. Today's Hereford has a lot to offer the beef industry. With today's high priced feed costs and increased land values, efficient cattle are more important than ever before. Research has proven that Hereford cattle are more efficient and add hybrid vigor and profit to the nation's predominately black cow herds.

Our goals remain the same-- we continue to increase growth traits and improve carcass traits while increasing calving ease. We strive to bring the best Hereford genetics to you the commercial producer and to improve your profit potential!!

Thanks!
Jerry Bischoff

CALVING EASE:

There is more to calving ease than birth weight. Birth weight, shape of calf at birth, pelvic area, size of cow and nutrition during gestation can all effect calving ease. BW and MCE should both be considered when selecting bulls. Continued selection for just light BW can lead to low growth rates.

All sale bulls have been DNA tested for three genetic abnormalities-Dilutor(DL), Hypotrichosis(HY) and Idiopathic Epilepsy(IE). All are DLF, HYF & IEF. "F" meaning free of these genetic abnormalities.

New data proves it

Net income of \$51 more per cow per year. A 7% advantage in conception rate. A significantly higher selling price for bred heifers — all this from Hereford-sired females compared to straight Angus females in a recent, large-scale study.* See all the data at www.hereford.org.

Yearling Heifers

**This bull
 produces
 better mamas,
 not headaches**

There's no mama like a Hereford-sired mama. Net income of \$51 more per cow per year and a 7% advantage in conception rate, compared to straight Angus females.* All this from a bull that is known for its fertility and easy-going nature. Hereford bulls — better mamas and no headaches.

Hereford — gentle bulls making black better.
